

Dear Friends,

As someone very involved in cancer research and fundraising, I want to thank you for recognizing and celebrating September as Gynecologic Cancer Awareness Month. Eighty thousand women in the United States will be diagnosed with gynecologic cancers this year alone. It is your support and leadership that brings the awareness necessary to prosper in the efforts of gynecologic cancer prevention, early detection, and research.

As many of you, George and I have also lost family and dear friends to cancer, and we therefore join the members of the Gynecologic Cancer Foundation in celebrating awareness this September. We applaud your efforts in the fight against this disease and look forward to the day when we no longer lose our loved ones, friends and employees to this deadly disease.

Thank you for your kind support.

Warmly,

Barbara Gurl

We are so proud  
of the job you  
are doing!
